PROFILE

Social media manager and video editor who leads a team of editors. I take content from idea to published post: short-form vertical video, animated GIFs and social posts, delivered on time and on brand. 4+ years of remote work in data annotation and photo analysis gave me a habit of checking every detail twice. I use AI tools like Claude and Codex to speed up scripting, captions and editing.

EXPERIENCE

Social Media Manager & Video Editor
2025 – Present

Team Lead · Remote

- Lead a team of video editors: assign tasks, review cuts and keep every project on schedule.
- Plan, create and publish content across social platforms, matched to each brand's voice.
- Edit short-form vertical videos with word-timed captions, motion graphics and sound design.
- Produced 97 animated exercise demo GIFs (800×800, 8-second loops), each built around one coaching cue.
- Use AI tools like Claude and Codex to speed up scripting, captions and editing workflows.

Photo Editor / Analyst
Sep 2024 – Aug 2025

Woflow Workforce

- Edited and analyzed images to meet client specifications and quality standards.
- Supported the operations team with accurate, on-time project completion.
- Improved visual consistency and client satisfaction through detailed photo analysis.

Data Annotator
Feb 2022 – Jul 2024

Telus International

- Handled photo editing and analysis tasks to keep data accurate and high quality.
- Worked with remote teams to hit project goals and keep workflows efficient.
- Delivered consistent, precise results under tight deadlines.
